

JR-GK0302

Features

- ◎ Patented aluminum die-casting Flying Saucer electrical box or round aluminum die-casting electrical box.
- ◎ Plastic spray surface.
- ◎ High purity aluminum oxide secondary reflector, improve the light output effectively.
- ◎ Tempered glass. High light transmittance.
- ◎ Installing height: 5–10meters.

Technical Data

Lamp source: JR-YH Series

Frequency: 230kHz

Power: 80W/120W/150W/200W

input voltage: 220V/90V–305V

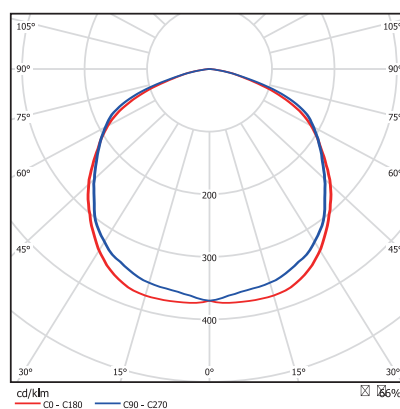

Working temperature: –35°C~50°C

Protection: IP54

G.W: A: 9.2 KG; B: 9KG

Packageing size: Type A: 570x570x390;

Type B: 570x570x350(mm)

Applications: industrial plants ,
warehouses , gymnasiums ,
hypermarkets , supermarkets and
other indoor environment.
